CITYWIDE STANDARDS OF INTERVENTION AND DISCIPLINE MEASURES

The New York City Department of Education is committed to ensuring that our schools are safe, secure and orderly environments in which teaching and learning take place each day. Safe, supportive school environments depend on students, staff and parents demonstrating mutual respect. Included in this document is the Student Bill of Rights and Responsibilities that promotes responsible student behavior and an atmosphere of dignity and respect by establishing guidelines to help students as they strive to become productive citizens in a diverse society.

STANDARDS OF BEHAVIOR: ACCOUNTABILITY AND SUPPORT

All members of the school community — students, staff and parents — must know and understand the standards of behavior which all students are expected to live up to and the consequences if these standards are not met. The Citywide Standards of Intervention and Discipline Measures (the Discipline Code) provides a comprehensive description of unacceptable behavior, including incidents involving drugs or weapons. It includes the range of permissible disciplinary and intervention measures which may be used when students engage in such behaviors as well as a range of guidance interventions schools may use to address student behavior. The Discipline Code applies to all students, including those with disabilities.

In providing a range of permissible disciplinary measures, the Discipline Code ensures both consistency and equitable treatment for all students and enables a principal and the Chief Executive Officer of the Office of School and Youth Development or other designee of the Chancellor or the Community Superintendent to exercise discretion and educational judgment. Principals, teachers, school staff, students and parents need to know the disciplinary measures that can be taken when a student misbehaves or substantially disrupts a classroom. Guidance interventions are included because inappropriate behavior or violations of the Discipline Code may be symptomatic of more serious problems that students are experiencing. It is, therefore, important that school personnel be sensitive to issues that may influence the behavior of students and respond in a manner that is most supportive of their needs.

The standards set forth in the Discipline Code apply to behavior in school during school hours, before and after school, while on school property, while traveling on vehicles funded by the Department of Education, at all school-sponsored events and on other-than-school property when such behavior can be demonstrated to negatively affect the educational process or to endanger the health, safety, morals, or welfare of the school community. When misbehavior involves communication, gestures or expressive behavior, the infraction applies to oral, written or electronic communications, including but not limited to texting, e-mailing, and social networking.

School officials are responsible for sharing the information contained in this document with students, staff and parents.
PROMOTING POSITIVE STUDENT BEHAVIOR

Each school is expected to promote a positive school climate and culture that provides students with a supportive environment in which to grow both academically and socially. Schools are expected to take a proactive role in nurturing students’ pro-social behavior by providing them with a range of positive behavioral supports as well as meaningful opportunities for social emotional learning. Effective social emotional learning helps students develop fundamental skills for life effectiveness, including: recognizing and managing emotions; developing caring and concern for others; establishing positive relationships; making responsible decisions; and handling challenging situations constructively and ethically. Such skills help prevent negative behaviors and the disciplinary consequences that result when students do not live up to behavioral standards. Student engagement is also integral to creating a positive school climate and culture that effectively fosters students’ academic achievement and social/emotional growth. Providing students with multiple opportunities to participate in a wide range of pro-social activities and, at the same time, bond with caring, supportive adults mitigates against negative behaviors. Examples can include: providing students with meaningful opportunities to share ideas and concerns and participate in schoolwide initiatives; student leadership development; periodic recognition of students’ achievements in a range of academic and co-curricular areas; using corrective feedback; and developing schoolwide positive behavior systems. Such opportunities, coupled with a comprehensive guidance program of prevention and intervention, provide students with the experiences, strategies, skills, and support they need to thrive.

PREVENTION AND INTERVENTION

School personnel are responsible for developing and using strategies that promote optimal learning and positive behavior throughout a student’s school experience. They are also responsible for addressing behaviors which disrupt learning. Administrators, teachers, counselors and other school staff are expected to engage students, including students with disabilities, in intervention and prevention strategies that address a student’s behavioral issues and discuss these strategies with the student and his/her parent. Intervention and prevention approaches may include guidance support and services to address personal and family circumstances; social/emotional learning, such as conflict resolution/peer mediation/negotiation, anger management, and/or communication skills acquisition; the use of alternate instructional materials and/or methods; enrichment services; alternate class placement; and/or development or review of functional behavioral assessments and behavioral intervention plans which should be developed and/or reviewed as an early intervention strategy. If, at any time, school officials suspect that a student’s difficulties may be the result of a disability which may require special education services, the student should be referred immediately to the Committee on Special Education. Through the use of intervention and prevention strategies that engage students and give them a clear sense of purpose, school staff facilitate students’ academic and social-emotional growth and assist them in following school rules and policies.

PARENTS AS PARTNERS

Students, parents and school personnel all have a role in making schools safe and must cooperate with one another to achieve this goal. School staff should keep parents informed of their child’s behavior and enlist parents as partners in addressing areas of concern. Outreach to parents can include, but is not limited to, a phone call and/or a written communication. As role models, parents and school staff should exhibit the behaviors which they would like to see students emulate. To ensure that parents become active and involved partners in promoting a safe and supportive school environment, parents must be familiar with the Discipline Code. Educators are responsible for informing parents
about their child’s behavior and for nurturing the skills students need to succeed in school and in society. Parents are encouraged to discuss with their child’s teacher and other school staff issues that may affect student behavior and strategies that might be effective in working with the student. It is important that there be maximum consultation and communication between the school and the home. Guidance conferences attended by the principal or his/her designee, a guidance counselor, the student’s parent, and one or more of the student’s teachers are an effective means of encouraging parental input and should be held with students where appropriate. Parents who want to discuss guidance interventions in response to student behavior should contact their child’s school, including the Parent Coordinator, or, if necessary, the Office of Family Information and Action.

NOTE: The Principal or the Principal’s designee must report all infractions to parents. When a student is believed to have committed a crime, the police must be summoned and parents must be contacted (see Chancellor’s Regulation A-412).

ATTENDANCE
School personnel must ensure that appropriate outreach, intervention and support are provided for students who exhibit attendance problems that manifest themselves as truancy or patterns of unexcused absence or educational neglect. In cases of truancy, school personnel must meet with the student and parent in order to determine an appropriate course of action which should include, but not be limited to: guidance intervention, referral for counseling, referral to after-school programs, the filing of a Person in Need of Supervision (PINS) Petition in Family Court and referral to the Administration for Children’s Services (ACS). The school’s Attendance or Pupil Personnel Committee should review cases of truancy and should involve attendance teachers, deans, guidance counselors, teachers, social workers and other school staff in facilitating a resolution to address the pattern of truancy. Cases of suspected educational neglect must be called into the New York State Central Register in compliance with Chancellor’s Regulation A-750, Section 1.5.

GUIDANCE INTERVENTIONS
To promote positive behavior schools provide a range of prevention and intervention strategies and support services for students during and/or after school hours throughout the school year. When a student engages in misconduct, the Discipline Code provides a non-exhaustive list of guidance interventions that should be considered based on the type of behavior in which a student has engaged. Guidance interventions should be employed as part of a comprehensive response and students should receive support services at all stages of the disciplinary process, including while on extended suspension. Support services may include any of the interventions or a combination of services that best meet the needs of the individual student. Students returning from suspension should be provided with support services to maximize their ability to meet the school community’s social and academic standards. When used consistently and appropriately, guidance interventions help improve student behavior, lower recidivism and contribute to a more positive school environment.

Students returning from suspension should be provided with support services to maximize their ability to meet social and academic standards within the school community. Support services may include any of the range of guidance interventions or a combination of services as best meets the needs of the individual student.

The guidance interventions are listed next to the disciplinary responses on each page and are further defined below.
TYPES OF GUIDANCE INTERVENTIONS

- **Parent Outreach:** School staff should keep parents informed of their child’s behavior and enlist parents as partners in addressing areas of concern. Outreach to parents can include, but is not limited to, a phone call and/or written communication.

- **Intervention by Counseling Staff:** Where available, school-based counseling personnel and/or School-Based Mental Health programs offer a wide range of comprehensive and confidential mental health services and interventions including, but not limited to: assessments, individual, group and family therapy, teacher consultations, educational strategies for parents and staff.

- **Guidance Conference:** Principals and teachers may request a guidance conference with the student and, where appropriate, with the parent or guardian. The purpose of the conference is to review the behavior, find solutions to the problem and address academic, personal and social issues that might have caused or contributed to the behavior.

- **Restorative Approaches:** Restorative approaches can help schools prevent or deal with conflict before it escalates; build relationships and empower community members to take responsibility for the well being of others; increase the pro-social skills of those who have harmed others; address underlying factors that lead youth to engage in inappropriate behavior and build resiliency; provide wrong doers with opportunities to be accountable to those they have harmed and enable them to repair the harm to the extent possible. These approaches include restorative enquiry, restorative discussion, restorative circles, mediation and formal restorative conferences.

- **Individual/Group Counseling:** Counseling provides students with an outlet to share issues in privacy that may be negatively impacting their attendance, behavior, and/or academic success. Students discuss and formulate goals, and learn problem solving strategies that will enable them to overcome a variety of personal challenges. Counselors will conference with parents on a regular basis to discuss the student’s academic and personal progress.

- **Peer Mediation:** Peer mediators help classmates identify the problems behind their behavior and find solutions to these problems. Conflict resolution skills are incorporated into the strategies used by peer mediators so that all students involved learn new ways of handling conflict.

- **Mentoring Program:** A mentoring program matches a mentor who may be a counselor, teacher, student and/or leader with a protégé. The object of this relationship is to help the protégé in his/her personal, academic and social development.

- **Conflict Resolution:** Conflict resolution provides an opportunity to empower students to take responsibility for peacefully resolving conflict. The related activities teach students, parents, and staff problem solving skills/techniques that can be used in everyday situations. Such skills can include, but are not limited to, conflict and anger management, active listening, and effective communication.

- **Development of Individual Behavior Contract:** The student meets with teachers to create a written contract that includes objectives and the specific performance tasks that the student will accomplish to meet those objectives. The contract is signed by the student and teacher and, where appropriate, by the parent or guardian.

- **Short-Term Behavioral Progress Reports:** Teachers and/or principals may send behavioral progress reports to parents/guardians on a regular basis until they feel that the student is in control of his/her behavior and working in the classroom successfully.

- **Referral to PPT (Pupil Personnel Team):** Pupil Personnel Teams are school-based teams that utilize a multidisciplinary approach to encourage student success through prevention and intervention strategies and supports. A case manager is identified for each student referral so that an individualized plan can be created to help students overcome their academic and/or socio-emotional difficulties.
• **Community Service (with Parental Consent):** Students may be provided with community service opportunities so that they gain a greater appreciation of their school neighborhoods and develop skills to become positive social change agents. Community service can help students occupy their time with positive activities, avoid negative behavior and learn the value of service to others.

• **Referral to a Community Based Organization (CBO):** Students may be referred to a community-based organization for a wide range of services including after-school programming, individual or group counseling, leadership development, conflict resolution and tutoring.

• **Referral to Appropriate Substance Abuse Counseling Services:** In the case where a student is presenting problems with substance abuse, including the use, possession or distribution of illegal drugs, drug paraphernalia, and/or alcohol, referrals should be made to counseling services that are either inside the school or through an outside community-based organization.

• **Referral to Counseling Services for Youth Relationship Abuse or Sexual Violence:** When one person uses a pattern of threatened or actual physical, sexual, and/or emotional abuse to control a dating partner, the school should refer both the victim and the student who engages in this behavior to separate appropriate school or community-based agencies for counseling, support, and education. Neither mediation nor conflict resolution are, under any circumstances, appropriate interventions for suspected relationship abuse.

• **Referral to Counseling Services for Bias-Based Bullying, Intimidation or Harassment:** When a student or group of students engages in bias-based bullying, intimidation or harassment of another student or group of students, both the victim and the student who engages in this behavior should be referred to separate appropriate counseling, support and education services provided by school staff or a community-based agency. Neither mediation nor conflict resolution are, under any circumstances, appropriate interventions for bias-based bullying, intimidation or harassment.

**INFRACTIONS AND RANGES OF POSSIBLE DISCIPLINARY RESPONSES**

School officials must consult the Discipline Code when determining which disciplinary measure to impose. In addition to consulting the Discipline Code, prior to determining the appropriate disciplinary and/or intervention measures, the following must be considered: the student’s age, maturity, and previous disciplinary record (including the nature of the prior misconduct, the number of prior instances of misconduct, and the disciplinary measure imposed for each); the circumstances surrounding the incident leading to the discipline; and the student’s IEP, BIP and 504 Accommodation Plan, if applicable. Every reasonable effort should be made to correct student misbehavior through guidance interventions and other school-based resources and the least severe disciplinary responses. Appropriate disciplinary responses should emphasize prevention and effective intervention, prevent disruption to students’ education, and promote the development of a positive school culture.

The enumerated infractions are not all-inclusive. Students who engage in misconduct which is not listed are subject to appropriate disciplinary measures by the teacher, principal or the Chief Executive Officer of the Office of School and Youth Development or other designee of the Chancellor or Community Superintendent based on violation of school rules. To ensure that staff, students and parents are aware of all expected standards of behavior, school rules must be in writing and distributed along with the Discipline Code.
LEVELS OF INFRACTIONS

The Citywide Standards of Discipline holds students accountable for their behavior. Each level of infraction contains a minimum to a maximum range of possible disciplinary responses that may be imposed by a teacher, principal, the Chief Executive Officer of the Office of School and Youth Development or other designee of the Chancellor or Community Superintendent. Infractions are grouped into five levels, which range from insubordinate behaviors to seriously dangerous or violent behaviors and provide a corresponding range of possible disciplinary responses. Whenever possible and appropriate, interventions should begin with the lowest level of disciplinary response. Clear distinctions are made for levels of behavior for grades K–5 and 6-12 so that the age and general maturity of the student are considered. Some infractions may not apply to students in grades K–3. The Discipline Code provides graduated penalties for students who engage in repeated misbehaviors despite the prior imposition of appropriate disciplinary measures. More severe penalties will be imposed on those students who engage in a pattern of persistent misconduct. Whenever possible and appropriate, prior to imposing such penalties, school officials should exhaust less severe disciplinary responses and use guidance interventions.

DISCIPLINE PROCEDURES

All entries in student records must be made in accordance with Chancellor’s Regulation A-820. All suspensions and removals from the classroom must be done substantively and procedurally in accordance with relevant Regulations of the Chancellor, State Education Law and Federal Laws. (Note: Student discipline procedures for summer school vary from those used during the regular school year and are issued separately.)

APPEALS

In accordance with Chancellor’s Regulation A-443, principals’ suspensions may be appealed to the Chief Executive Officer of the Office of School and Youth Development or other designee of the Chancellor, and superintendents’ suspensions (i.e., suspensions imposed by the Chief Executive Officer of the Office of School and Youth Development or other designee of the Chancellor or by the Community Superintendent) may be appealed to the Chancellor.

CHANCELLOR’S REGULATIONS

All Chancellor’s Regulations may be found at www.nyc.gov/schools/RulesPolicies/ChancellorsRegulations.

Suspensions of more than five days may be imposed for students in all schools by the Chief Executive Officer of the Office of School and Youth Development or other designee of the Chancellor, or for students in elementary and middle schools by the Community Superintendent. For ease of reference, the term “superintendent’s suspension” is used throughout this document to denote both suspensions imposed by the Chief Executive Officer of the Office of School and Youth Development or other designee of the Chancellor and suspensions imposed by the Community Superintendent.

The following discipline responses must be effectuated in accordance with all the procedural requirements of Chancellor’s Regulation A-443.

**REMOVAL FROM A CLASSROOM BY A TEACHER**
A student who engages in behavior which is substantially disruptive of the education process or substantially interferes with a teacher’s authority over the classroom may be removed from the classroom by the teacher for 1-4 days.

Removed students will be sent to a location within the school where they will be provided with continued educational services including classwork and homework.

After a student is removed from any classroom by any teacher three (3) times during a semester or two (2) times during a trimester, a principal’s suspension must be sought if the student engages in subsequent misbehavior that would otherwise result in a removal by a teacher.

**PRINCIPAL’S SUSPENSION**
A principal has the authority to suspend a student for 1-5 days when a student’s behavior presents a clear and present danger of physical injury to the student, other students or school personnel, or prevents the orderly operation of classes or other school activities.

Suspended students must be provided with alternate instruction including homework and classwork.

**SUPERINTENDENT’S SUSPENSION**
A superintendent’s suspension may result in a period of suspension that exceeds five days. A student who receives a superintendent’s suspension must be provided with the opportunity for a hearing at which the student has the opportunity to present evidence and witnesses on his/her behalf and to question the school’s witnesses. If the school proves the charges and the suspension is upheld, the Chief Executive Officer of the Office of School and Youth Development or other designee of the Chancellor or the Community Superintendent may impose one of the following:

- **IMMEDIATE REINSTATEMENT**
  The Chief Executive Officer of the Office of School and Youth Development or other designee of the Chancellor or the Community Superintendent may reinstate the student to the suspending school immediately following the decision to uphold the suspension.

- **CONTINUED SUSPENSION FOR A FIXED PERIOD OF 6-10 SCHOOL DAYS**
  The Chief Executive Officer of the Office of School and Youth Development or other designee of the Chancellor or the Community Superintendent may continue the student’s suspension from school for a fixed period of 6-10 school days during which the student receives alternate education at a location that may be outside the school building. At the end of the suspension period the student must be reinstated to his/her original school.
• EXTENDED SUSPENSION FOR 30-90 SCHOOL DAYS WITH AN AUTOMATIC REVIEW FOR EARLY REINSTATEMENT AFTER 30 or 60 SCHOOL DAYS

The Chief Executive Officer of the Office of School and Youth Development or other designee of the Chancellor or the Community Superintendent may order that a student be suspended for 30-90 school days and reassigned to an alternate instructional site with an automatic review for early reinstatement after 30 or 60 school days, for suspensions longer than 30 days. In determining the date upon which the student is reinstated, the Chief Executive Officer of the Office of School and Youth Development or other designee of the Chancellor or the Community Superintendent shall, to the extent possible, consider the school calendar in order to ensure instructional continuity. If early reinstatement is not granted, the student will remain in the alternate instruction site for the remainder of the suspension, and must be reinstated to the suspending school at the termination of the suspension.

• ONE YEAR SUSPENSION AND ASSIGNMENT TO AN ALTERNATE INSTRUCTIONAL PROGRAM, WITH AN AUTOMATIC REVIEW FOR EARLY REINSTATEMENT AFTER 6 MONTHS

The Chief Executive Officer of the Office of School and Youth Development or other designee of the Chancellor or Community Superintendent may order that a student be suspended for one year and reassigned to an alternate instructional site, with an automatic review for early reinstatement to the suspending school after 6 months. If early reinstatement is not granted, the student will remain in the alternate instructional site for the remainder of the suspension, and must be reinstated to the suspending school at the termination of the suspension.

• ONE YEAR SUSPENSION AND ASSIGNMENT TO AN ALTERNATE INSTRUCTIONAL PROGRAM, WITHOUT THE POSSIBILITY FOR EARLY REINSTATEMENT

The Chief Executive Officer of the Office of School and Youth Development or other designee of the Chancellor or the Community Superintendent may suspend a student for one year without the opportunity to petition for early reinstatement. Students must be placed in an alternate instructional site for the year. At the termination of the one-year period, the student will be reinstated to the school from which he/she was suspended.

• EXPULSION (ONLY FOR GENERAL EDUCATION STUDENTS WHO TURNED 17 PRIOR TO THE BEGINNING OF THE SCHOOL YEAR, WHICH IS JULY 1)

The Chief Executive Officer of the Office of School and Youth Development or other designee of the Chancellor or the Community Superintendent may expel a student from the New York City Public School system only if the student is in general education and turned 17 prior to the beginning of the school year.
TRANSFER OPTIONS
The Chief Executive Officer of the Office of School and Youth Development or other designee of the Chancellor or the Community Superintendent may transfer a student to another school if the parent consents.

At any point in the suspension process, and in the absence of a suspension, if a principal believes that the reinstatement of a student in general education would not be appropriate because of the student’s academic or behavioral difficulties and that the student would benefit from a transfer or receive an appropriate education elsewhere, the principal may initiate involuntary transfer proceedings. See Chancellor’s Regulation A-450.

At any point in the suspension process, if the principal believes that a student with a disability will not benefit from reinstatement, the principal may initiate referral to the Committee on Special Education for purposes of holding a placement meeting.

For information regarding Safety Transfers, see Chancellor’s Regulation A-449.
